

Who Am I?

Can you find me in Crackley Woods?

You will find posts with rubbing discs of things that live at Crackley Wood around the reserve, match each one to its clue and do the rubbing in the space underneath...

Hear me knocking as I hunt for tasty insects.

I live in water and on the land as an adult but I'm born with a tail instead of legs.

I fly on spring and summer nights, the dark doesn't bother me as I cannot see, I have to listen.

The king of the wood, tall and mighty I am very old, home to many creatures from insects to birds.

Who Am I?

We hope you are having fun! Please Tweet or Facebook us with a photo! @WKWT @WarwickshireWT

I may look like I'm from a fairy tale
but my bright red is a warning – I'm
poisonous!

If you're behind me I can still see you as
I can turn my head 270°!

See me dancing in the dappled light
between the trees, if there were too
many trees I would not survive.

I droop to one side as all my blue
flowers pull me over unlike my larger
Spanish relative who stands straight
with flowers either side.
